Explore. Discover. Innovate.

We are currently looking for a new colleague for our three-man logistics team at our location in Haar close to Munich. With your meticulous work and your explicit sense of order you will ensure a smooth supply of parts for our production team – starting with the reception of incoming goods to their final handling. You also will be responsible for the shipment of our Nano technological high-end products to our customers.

Logistics Employee

Your Responsibilities and Duties

- Receiving and processing incoming stock and materials – supervision of orders as well as keeping track of our stock by using our goods receiving system
- Prepare all orders for shipment including the packaging of our nanotechnological High-End products
- Picking of goods, appropriate storage and retrieval of goods
- Active participation in the optimization of logistical processes

Your Skills and Qualifications

- A professional training in logistics or alternatively previous work experience in logistics/warehouse
- Previous work experience in one of the above mentioned areas is of advantage
- A reliable, independent and responsible way of working
- Good knowledge of German and good PC skills

What We Do Offer

- A permanent position with attractive social benefits such as pension allowance and a performance-based bonus as well as numerous team events
- A very good working atmosphere in an international, innovative team at our new site in Haar near Munich, directly located at the S-Bahn station Haar
- Flexible working hours, a subsidized canteen, numerous team events and a diverse health and sports program (e.g. in-house fitness studio, complimentary fruit)

Do you like things get done and are you characterized by a high degree of reliability? Please send us a cover letter including your salary expectations along with your complete CV and copies of your degrees by using our [Online Application Tool](#).
